

## > LAKEWOOD ESTATE

Big, bold & beautiful

This large and spacious home started off as a DIY exercise, but we were called in for our expertise when the owners realized that they had misappropriated their space. The challenge was to create a contemporary and stylish home.

We stepped in and made use of the volume by repurposing isolated areas into relaxation stations and points of interest. We chose to use tans and greys, coupled with different textures of glass, wood, metal and stone. Bright colours were used as statement pieces to accentuate each area. We paid incredible attention to detail to produce stylish and edgy design, including the use of eclectic lighting pieces. Using asymmetrical shapes, we were able to capture the charm of the home and showcase the space in a sophisticated and elegant fashion.
